

Bluetooth

Need Help with your Bluetooth Device?

Did you know that many of today's Bluetooth devices allow you to play your stored or streaming media directly from your Bluetooth device through your car stereo speakers without running a wire in your car?

PcComputerGuy can help you get the most out of your Bluetooth device, and can help you troubleshoot when such devices go awry.

Here are a few examples of tasks which are possible via Bluetooth:

- You can use your smartphone as a wifi hotspot for your laptop
- You can stream media and pictures to your Bluetooth-capable television or car stereo system
- You can transfer your files wirelessly
- You can use your Bluetooth as an electronic "Business Card," beaming and collecting other's contact information

And more! Call PcComputerGuy today at (317.883.7224 or 866.653.6748) to set up an appointment.
