

Hardware

Hardware Repair

Issues which require diagnosis and repair or replacement of physical elements of a PC are no problem for PcComputerGuy. Such items include: CPU (central processing unit), Motherboard, RAM (memory), CD ROMs/Burners/DVDs, Floppy/Hard Disks, Power Supplies, Network Interface cards, Modems, Sound devices, Printers and other external devices. In addition to the above, PcComputerGuy offers:

- Replacement of Motherboards
- Replacement of most PC Cards
- Replacement of CPU
- Replacement of RAM (memory)
- Installation/Replacement of all peripherals including CDROM/Burner/DVD/Floppy devices.
- Replacement of Hard Drive (usually requires timely recovery procedure)

Have we forgotten to include something in this list? No worries--PcComputerGuy handles many more hardware issues than the short few items above. If it belongs with a computer, PcComputerGuy can help. Give us a call today to find out more! (317.883.PCCG (7224) or 866.653.6748)
