PcComputerGuy offers [coupons](#) [1] for new customers. Also, be sure to call and ask about our selection of [refurbished computers](#) [2] offered at deep discounts.

Remote Access Service is provided by PcComputerGuy at a discount to the normal on-site price. Remote Access Service is different from traditional On-Site computer repair in that the technician does not make an on-site visit, but instead assists customers remotely. Call PcComputerGuy today at 317.883.7224 or 866.653.6748 to learn more about this service! The pricing structure for Remote Access service is \$70 per hour, 1/2 hour minimum. (\$35 minimum.) *Some situations will require a home visit, in which case Remote Access Service and Pricing can not be applied.

In-Shop Service: PcComputerGuy now offers customers the option to drop off their computer and pick it up when the repairs are complete. Advantages of this option include significant cost savings: 1) For In-Shop service, we generally charge a maximum of three hours, even if the job takes longer to complete. (This may not apply in rare circumstances such as data-recovery. Your technician will discuss all of the details with you prior to completing the work.) In-Shop service is billed at \$70 per hour with a one-hour minimum. New customers will receive the \$10 per hour discount. 2) For In-Shop service, there is no trip-charge, saving customers anywhere from \$10-\$40 depending on customer type.
