In this Podcast, PC Computer Guy - Nick Ellis gives a 30 minute over-view of things you should be doing to keep your computer running well. This is a special edition "roundup" where we take the key items and present them in a single podcast.

We cover topics such as:

- AntiVirus
- Malware Prevention
- Ad Blocker
- Web Browser Cleanup
- System cleanup and startup optimization
- Defragging (or rather DON'T defrag)
- Registry cleaners
- Backing up your computer
- Internet Money Saving Tips
- And more!
