

New Computer Service

New Computer Service

Buying a new computer can be a daunting task. Let PcComputerGuy take all the stress out of your next PC purchase. PcComputerGuy will help you compare options and choose the computer and components which fit your needs and budget. Then, PcComputerGuy will deliver and install your system in your home. Every detail will be taken care of, from installing your Operating System to setting-up your email. PcComputerGuy can even transfer over your old files and "Internet Favorites," making the transition from old to new computer virtually seamless. Here's how it works:

- 1) You call PcComputerGuy and give us an idea of what you are looking for.
- 2) PcComputerGuy will present you with several options to choose from, depending on your needs and budget
- 3) You pick your new computer
- 4) PcComputerGuy orders your computer and sets up an installation date
- 5) PcComputerGuy delivers your computer, and set-up will take between two and three hours. PcComputerGuy will explain the different components of your system and answer any questions you may have.
- 6) That's it! You sit back and enjoy your new computer! Completed usually in less than 3 business days.

Think of PcComputerGuy as your "One-Stop-Shop" for buying a new computer. We do all the work--you get to enjoy a new computer without all the hassle! When you are ready to make a new purchase, be sure to call PcComputerGuy at 317.883.7224 or 866.653.6748.

Our Shop-For-You service is a flat rate of \$150 on-top of the cost of the computer. There's no guessing, no mysterious markup's; rather transparent straight-forward pricing. This fee covers our time in gathering your requirements, searching for a system that best suits your needs and reviewing the specific machine for quality, reliability and components inside the computer. We also hunt around for the best deal for your specific needs at the time. Our service also includes a 30-day warranty for defect of the provided computer. If there should be any hardware failures, PC Computer Guy will rectify the problem at no additional cost.

We also have a great [New Computer Guide](#) [1] you can check out if you'd prefer to do-it-yourself!

We also offer Custom Built Performance Computers that can be tailored to your budget and desired results.
