

PC Cleanup, Check up, and Yearly Maintenance

PC Clean-up and Yearly Maintenance

Does your computer need some TLC? Just as your car has its regular oil changes - your computer should have a yearly checkup/cleanup done.

Over time your computer will accumulate a buildup of temp (junk) files, have junkware/malware (even if you have an anti-virus), unnecessary items added to the system startup and fall behind on security updates.

Call Pc Computer Guy to set up your in-home, in-office, remote or drop-off appointment today!
