Change Desktop Background Image

Change your Background Image | Tech Tips Video by PcCG

So very often when working on computers, I notice that the same factory default background is present, years after the client has been using the machine. This makes me think many people don't know how to actually change their background, or that Windows 7 and Windows 8 have a very neat rotating background feature. In this video I demonstrate how to change your windows background and how to create your own custom background slide show in just a few easy clicks.
